PROFESSIONAL SUMMARY

Motivated Software Developer with a strong foundation in software development and a keen interest in building scalable applications. I have hands-on experience developing **RESTful APIs** using **Spring Boot**, performing **CRUD operations**, and working with **MySQL** and **MongoDB**. I am familiar with **JWT-based authentication** and integrating backend services with frontend applications. I also have exposure to **React**, **HTML**, **CSS**, and **Bootstrap** for building responsive interfaces. I am eager to start my IT career, enhance technical skills, and contribute effectively.

SKILLS

Programming Languages: JavaScript, Java

Frontend: HTML, CSS, Bootstrap

Backend: Java, Core Java, OOPS concepts, REST APIs

Tools: Git, GitHub, Postman, VS Code

Frameworks: React, Spring Boot

Databases: MySQL, MongoDB

PROJECT

Frontend Project – Fashion Website (React)

- Designed and developed a **responsive fashion e-commerce website** using React.js, HTML5, and CSS3.
- Implemented **product collections** for Men, Women, Kids, and Accessories with **dynamic rendering**.
- Built **interactive and reusable React components** for navigation, product listings, and overall layout.
- Designed **Add to Cart functionality**, **address forms** and a smooth **checkout flow**.
- Ensured **responsive design** compatibility across desktop, tablet, and mobile devices.

Technologies Used : React.js, HTML5, CSS3, Bootstrap

Backend Project – Fashion E-Commerce System (Spring Boot)

- Developed a **RESTful backend application** using **Spring Boot** for a fashion e-commerce platform.
- Implemented **CRUD operations** for products, users, cart, and address management.
- Designed and exposed **REST APIs** for seamless integration with the React frontend.
- Implemented **JWT-based authentication** and authorization for secure Login and Register functionality.
- Used **DTOs to separate entity models** from API payloads, improving maintainability and security.
- Followed **layered architecture** using Controller, Service, and Repository layers.
- Implemented **exception handling** and **JWT token validation** to protect secured endpoints.

Technologies Used : Spring Boot, Java, REST API, JWT Authentication, DTO, CRUD Operations

EDUCATION

B.E Electrical and Electronic Engineering
University College of Engineering, Pattukkottai,
Thanjavur.
CGPA: 7.7

2021 – 2025

CERTIFICATION

Java Full Stack at Login360,
Coimbatore.

August-December 2025

LANGUAGES

Tamil

English

SOFT SKILLS

- Adaptability
- Problem-solving ability
- Logical thinking
- Positive attitude
- Teamwork & collaboration
